

LIFE CET Call 2022

Towards an effective implementation of key legislation in the field of sustainable energy

LIFE-2022-CET-Policy

*Ulrike Nuscheler, Senior Project Adviser,
CINEA, LIFE-CET*

Implementing sustainable energy key legislation

Objectives

Type of action: Other Action Grants - CSA (95%)

- The **EU legislative framework** for sustainable energy:
 - evolving constantly – just undergoing a new, comprehensive revision under the EU Green Deal.
 - needs to match 27+ national contexts
- **Member States** need to implement legislation by
 - **introducing policy measures** taking into account their specific needs and conditions
 - putting in place **adequate tools for monitoring and evaluation**.
 - > Requires a high level of **technical capacity and resources**.
- Topic aims to **support Member States in implementing sustainable energy legislation**
 - 👉 **Call 2022 will focus on the Energy Performance of Buildings Directive (Scope C) !**
 - 👉 Note that **implementation support for other pieces of legislation** is also addressed inside **vertical topics** (e.g. EE1st, BUSINESS, ENERCOM)

Implementing sustainable energy key legislation

General Scope

- Enable exchange of insights and sharing of best practices within and across Member States
- Provide support, technical advice and tools for contextualisation and specification of requirements
- Scope, assess and model the impact of implementation options, including non-energy impacts
- Support the monitoring and evaluation of policy implementation
- Develop and apply methodologies to more accurately measure, calculate and account for contributions made under specific policy measures and programmes
- Collect and analyse energy consumption data across sectors; monitor efficiency trends and show their implications for society, markets and technologies
- Develop and support integrated methodologies for areas and sectors that are addressed by different policies and pieces of legislation.

Implementing sustainable energy key legislation

Scope C

Actions under Scope C are expected

- to address **core provisions and aspects** of the Energy Performance of Buildings Directive,
- in particular those that are subject to major changes or that are being newly introduced under the 'Fit for 55' recast, e.g. provisions related to
 - Minimum Energy Performance Standards,
 - National Building Renovation plans,
 - Renovation passports,
 - Zero-emission buildings,
 - infrastructure for sustainable mobility.

Implementing sustainable energy key legislation

Nota Bene

- Proposed actions are expected to be **future-proof**, i.e. able to accommodate new policy developments and provisions
- For actions...
 - strengthening the enabling framework for deep renovation: LIFE-2022-CET-DEEPRENO
 - supporting the implementation of Energy Performance Certificates: LIFE-2022-CET-BUILDPERFORM
 - supporting the implementation of the Smart Readiness Indicator: LIFE-2022-CET-BUILDPERFORM
 - supporting the implementation of provisions related to heat pumps: LIFE-2022-CET-HEATPUMPS
- Typical EU contribution of up to EUR 2 million (not precluding other amounts).

Implementing sustainable energy key legislation

Expected Impacts for Scope C

- Improved collaboration of implementing bodies within and across Member States; increased understanding and knowledge in public administrations
- More effective implementation of provisions, including better planning, design and evaluation
- Use of appropriate tools and methods that facilitate availability and access to data; improved quality of data and better monitoring
- Improved understanding of consumption trends
- Use of more accurate calculation and M&V methodologies
- Improved quality of reporting/ NECPs/ Long-term renovation strategies
- Improved understanding of potentials and market barriers
- Improved understanding and measurement of impacts and non-energy benefits,
- Primary energy savings/Renewable energy generation triggered by the project (in GWh/year)
- Investments in sustainable energy triggered by the project (cumulative, in million Euro)

Implementing sustainable energy key legislation
