CLEAN ENERGY

<u>Just Transition Mechanism - Public Sector Loan Facility</u>

CINEA manages the third pillar of the Just Transition Mechanism, the Public Sector Loan Facility, which supports projects addressing social, environmental and economic challenges deriving from the transition to the Union's climate target objectives.

Budget (2021-2027): €1.3 billion

,	
	• Clean energy and energy efficiency measures
	Renewable energy and green and sustainable mobility
	Efficient district heating networks
Key Areas	Environmental management infrastructure
	Sustainable energy measures
	Renovations and conversions of buildings
	Urban renewal and regeneration
	• EU Member States
	• Legal entities: Public bodies or private bodies entrusted with a public service mission
WHO can apply?	International organisations
	Projects must benefit a territory covered by a Territorial Just Transition Plan (TJTP) of an EU member State and not generate
	sufficient revenues to cover the investment costs.
	Urban and energy efficiency development
WHAT activities	• Innovation projects
can be funded?	Projects upskilling and reskilling
	Training/capacity building
	• The expected range of the EC contribution is approximately €15-30 million/project
Range of EU	• The Public Sector Loan Facility is a blending facility that combines grants from the EC and loans of the European Investment Bank
Contribution	• The EC contribution is a share of the EIB loan:
	- 15% of the loan for EU regions in transition
	- 25% of the loan in EU less developed regions
