### **1.11. Description of security measures**

For temporary and contract Agents personal data is processed via the e- Recruitment tool, which abides to strict confidentiality and security measures to ensure data protection. This tool is operated via a contractor selected by CINEA, which is located in the EU and is subject to the GDPR (see below for more information).

Personal data of applicants is stored electronically and in paper and accessible only by the authorized personnel for the purposes of the selection and recruitment of candidates on a need-to-know basis. Access is granted only if there is a clearly specified administrative purpose, and only to those whose role and level of responsibility require them to have access. HR staff having access to the data is bound by confidentiality.

- Electronic archives are kept in CINEA's Human Resources restricted CINEA Shared Drive and Functional mailbox and only accessible by designated staff members. Access to data is safeguarded by the internal European Commission IT systems, which protect against external users accessing the data. Access to electronic files is protected via the Commission security measures (use of password & ECAS authentication system, etc.);
- Members of the Selection Committee are responsible for maintaining the confidentiality of any documents or electronic files sent to them. They are requested to return, erase or destroy all confidential documents or files received.
- Paper archives for each selection procedure are kept in closed cupboards and the keys are owned by the HR staff member responsible for each selection;
- Archives of the selections are transferred to an archive room with restricted access once the selection procedure is closed;
- For selected candidates, individual personal files are created and stored in secure archives that are accessible only to authorised personnel. An electronic version of the personal data is stored by the Unit A4 – HR Service and kept confidential with restricted access rights.

Specific measures for the e-Recruitment tool:

- Data entered by the candidates in the e-Recruitment tool is secured and only accessible by authorized staff members of the HR Unit's Staff Recruitment Team and designated Selection Committee members.
- The access to the e-Recruitment tool is done via a secured platform and using an individual password. The access to the personal data is protected by the management of the access rights which are strictly limited to specific user groups. The entitlement is distributed according to the principle of 'the need to know' taking into consideration the function, the job and responsibilities of the applicant for an access right. Consequently, the access rights are continuously updated in accordance with the changes in the assignments of the jobholders.
- The datasets are safeguarded in the Data Centers of the contractor, and therefore covered by the numerous defensive measures implemented to protect the integrity and confidentiality of the electronic assets.
- Candidates have the possibility to request to delete their profile from the e-Recruitment tool database (containing all submitted documents and information related to selection).
- The contract with the processor implementing the e-recruitment tool provides for obligations to ensure data protection (e.g., confidentiality, measures to take in case of data breach, no cloud outside the EU, etc.)

Specific measures for bluebook traineeship:

- The selection of candidates for bluebook traineeship, is done via a secured database owned by DG EAC. Access to data is restricted to the coordinator in CINEA, Heads of unit, advisors and the Director of the Agency on a need-to-know basis. The access to the database is protected by a password and managed by the traineeship office. Personal data of pre-selected candidates are stored in a database (Virtual Blue Book, "VBB") under the responsibility of the Traineeship Office. This database is accessible to all services of the Commission and to Executive Agencies and provides access to restricted information. Data processing by the Agency concerns only the selection from the VBB. No personal files are opened for trainees.
