

List of Projects participating European Maritime Day 2022

CEF

[PMEDII project - POSEIDON MED II](#)

Adopting LNG as marine fuel in East Mediterranean Sea

[GAINN4SEA project](#)

New LNG multi-modal facility for the transport sector in the maritime port of Venice

[LNG Facility in the port of Venice project](#)

Accelerating the deployment of the alternative fuels network in the North-East of Italy

[Channeling the green deal for Venice project](#)

Guaranteeing the full and long-term sustainable navigability of the Malamocco-Marghera channel

[ACCESS2NAPA](#)

Accelerating the deployment of the alternative fuels network in the North-East of Italy

[Porthos CO₂ Transport and Storage](#)

CO₂ reduction through storage beneath the North Sea

Horizon 2020

[PIXEL](#)

Port IoT for Environmental Leverage

LIFE PROGRAMME

[LIFE GREENSITE project](#)

Supercritical fluid technologies for river and sea dredge sediment remediation

Opportunities
at **CINEA**

EMFF/EMFAF

[SEA OF EXPERIENCE](#)

Establishment of Eastern Mediterranean Regional Network

[SEASTAR](#)

Innovative underwater infrastructure to allow fish farmers to monitor fish health remotely and in real time

[ASPBAN](#)

Atlantic Smart Ports Blue Acceleration Network to help EU Atlantic ports work as blue economy hubs

[FISH4FISH](#)

FISH chitinolytic biowastes FOR FISH active and sustainable packaging material

[BLUEINVEST](#)

Boosting innovation and investment in sustainable technologies for the blue economy

[KELP EU](#)

Kick-starting the European seaweed industry and sustainable seaweed farming

[BASTA](#)

Boost Applied munition detection through Smart data integration and AI workflows

[FLEETUSV](#)

Low-cost, Efficient, High-performing Autonomous Unmanned Surface Vessel

[BlueRoSES](#)

Blue robotics for sustainable eco-friendly services aimed at innovative marinas and leisure boats
