# Collaboration

## Danish Nature Agency

- Controlling invasive predators on own areas
- Use GPS-collars on sterilised raccoon dogs for tracking single individuals
- Answer and communication to private citizens
- Fast eradication of IAS

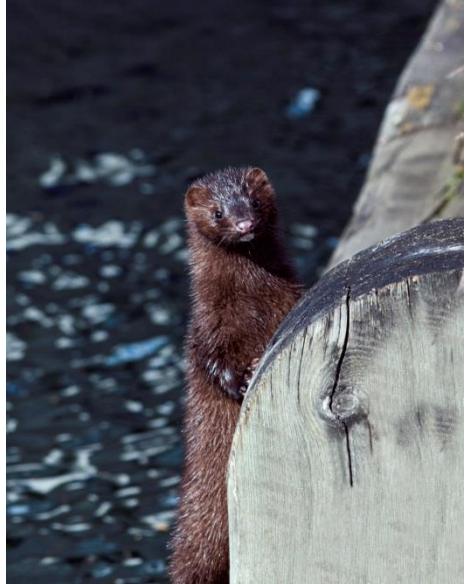

## Danish Hunters Association

- Information regarding hunting practices for controlling invasive predators
- Answer and communication to private citizens

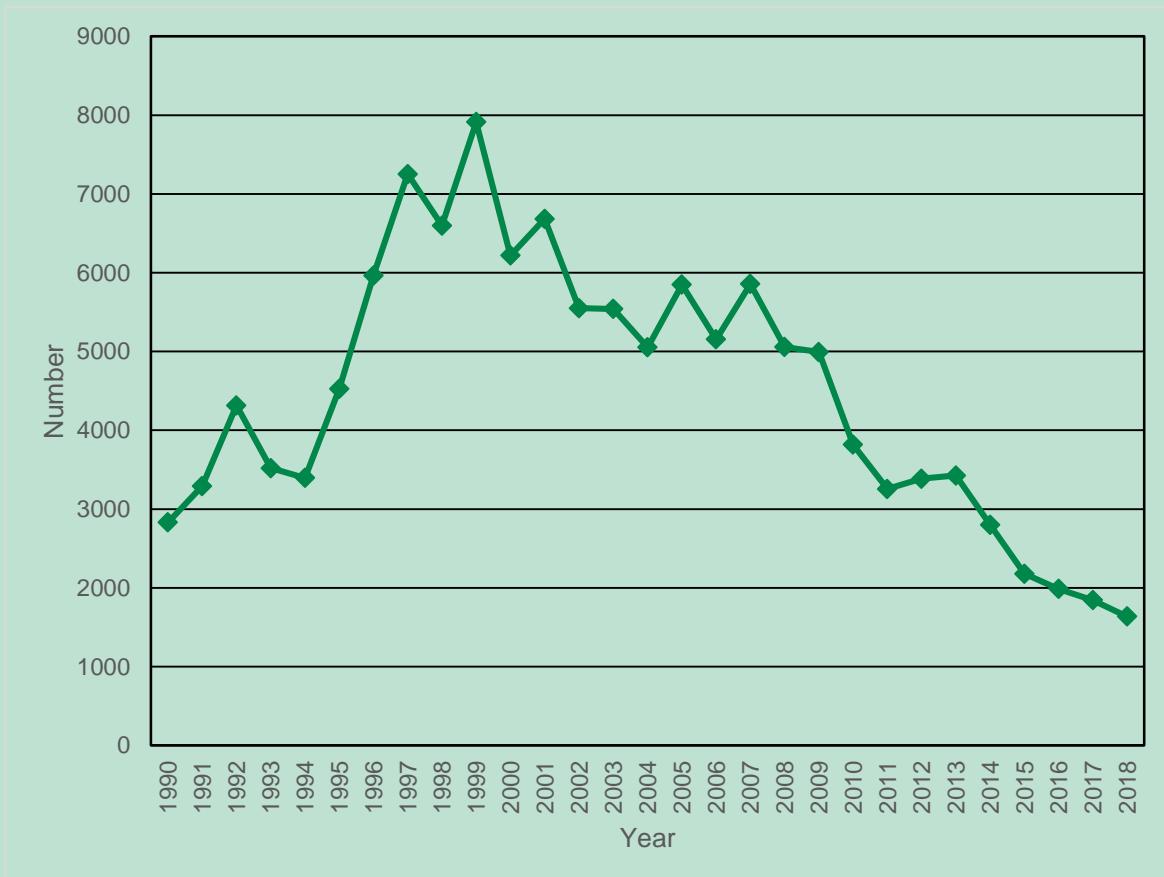

# Mink

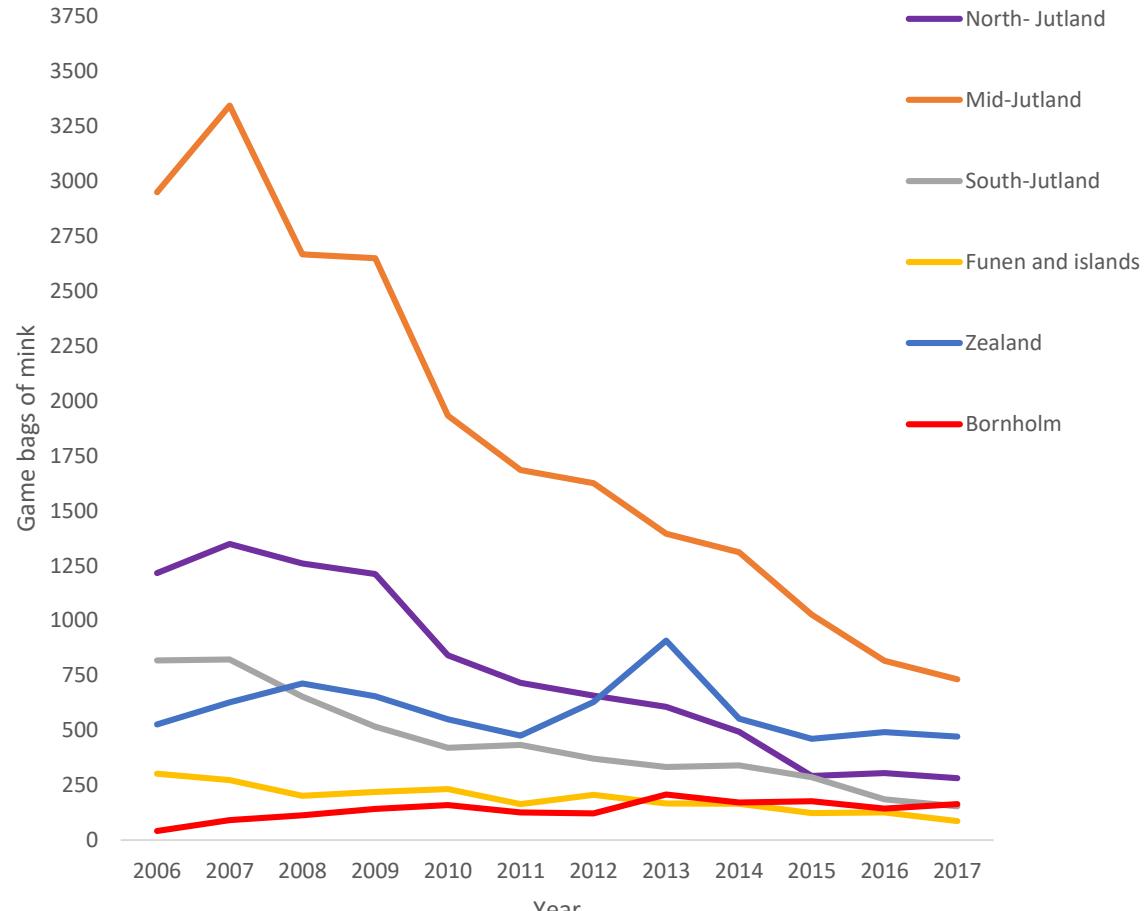

- Whole country
- Old action plan for mink to be replaced
- Focus areas
- Declining population?

Game statistics mink 1990-2018

# Game statistics by region 2016-17

# Raccoon dog

- Widespread in Jutland
- Sporadic on Funen
- Action plan for raccoon dog to be replaced

Purpose to eradicate the raccoon dog by 2015!

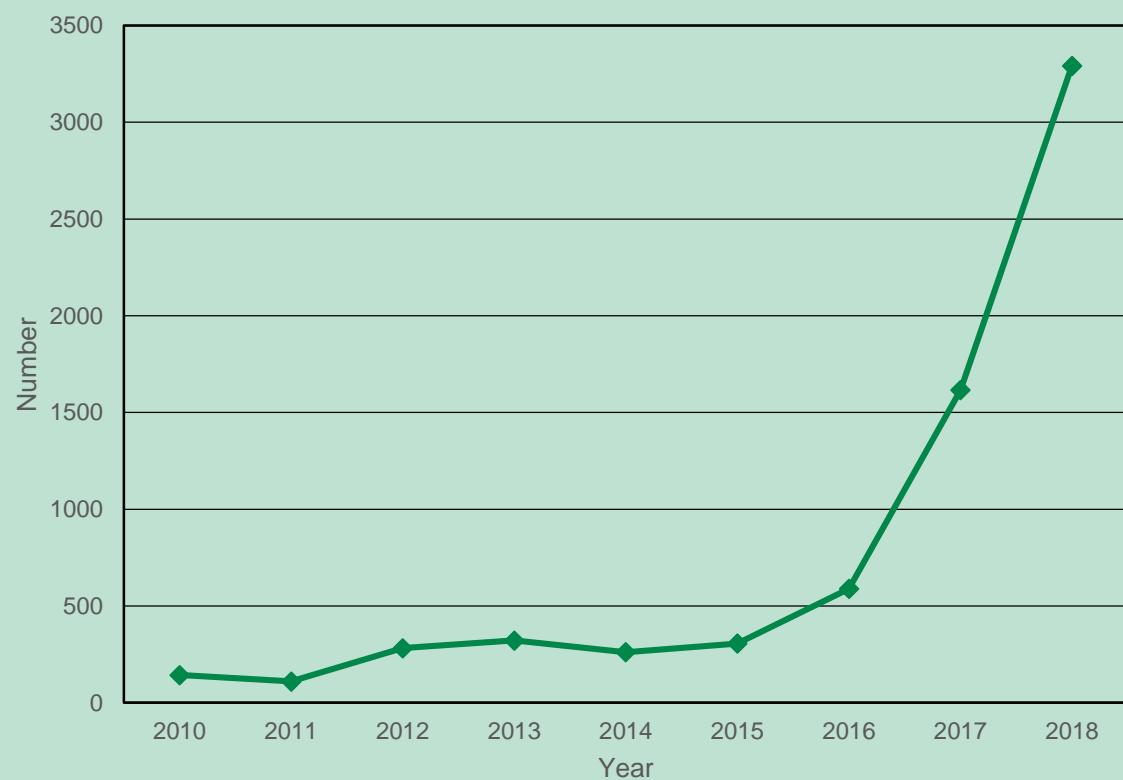

GPS-collars, hunting and trapping – increased legal actions in place

- Increasing population

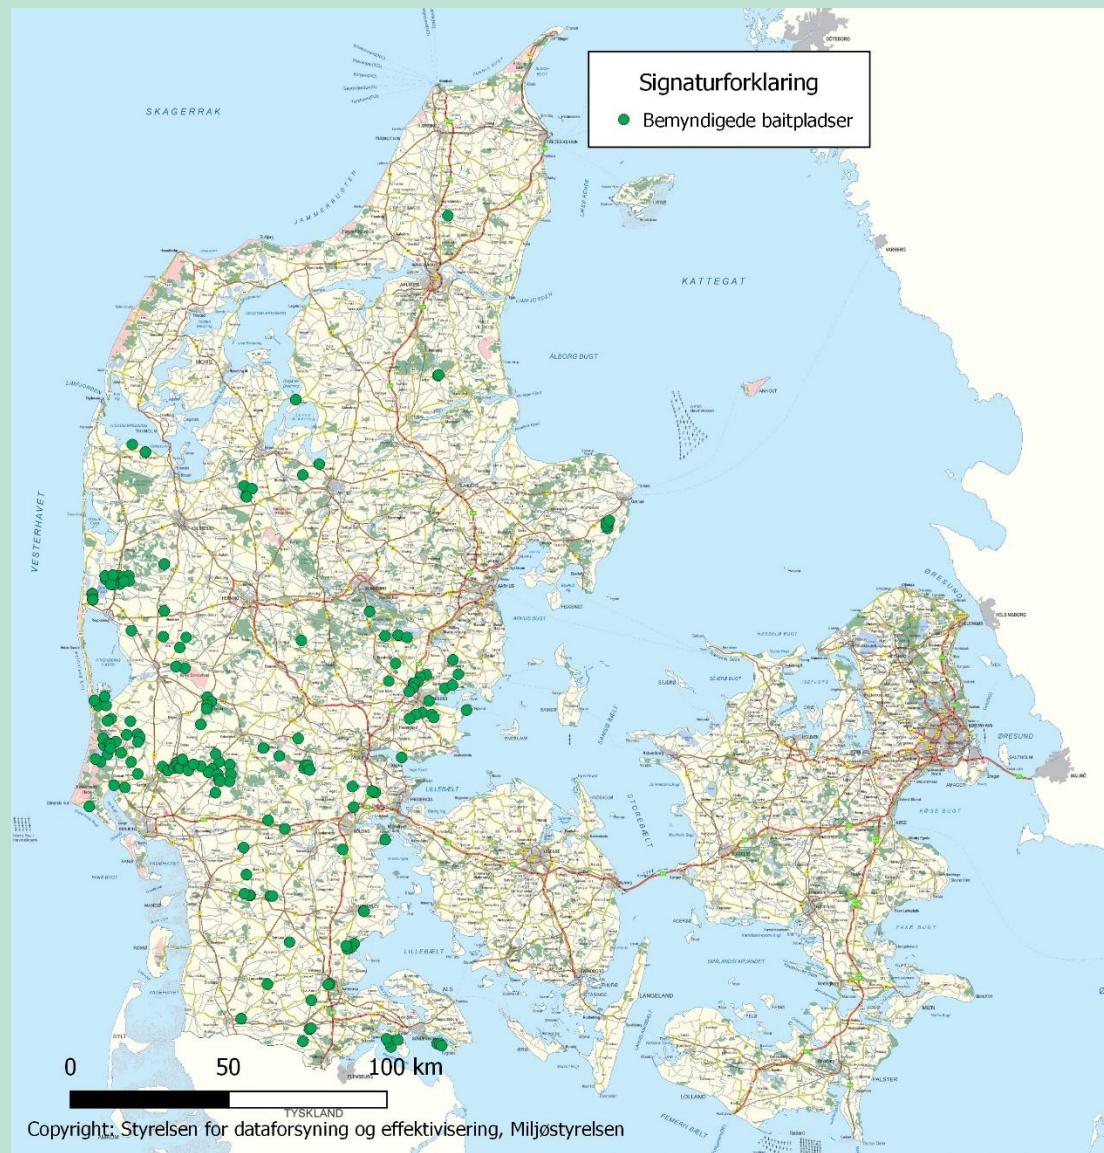

Target not achieved and eradication not possible

Game statistics raccoon dog 2010-2018

# Position of bait locations

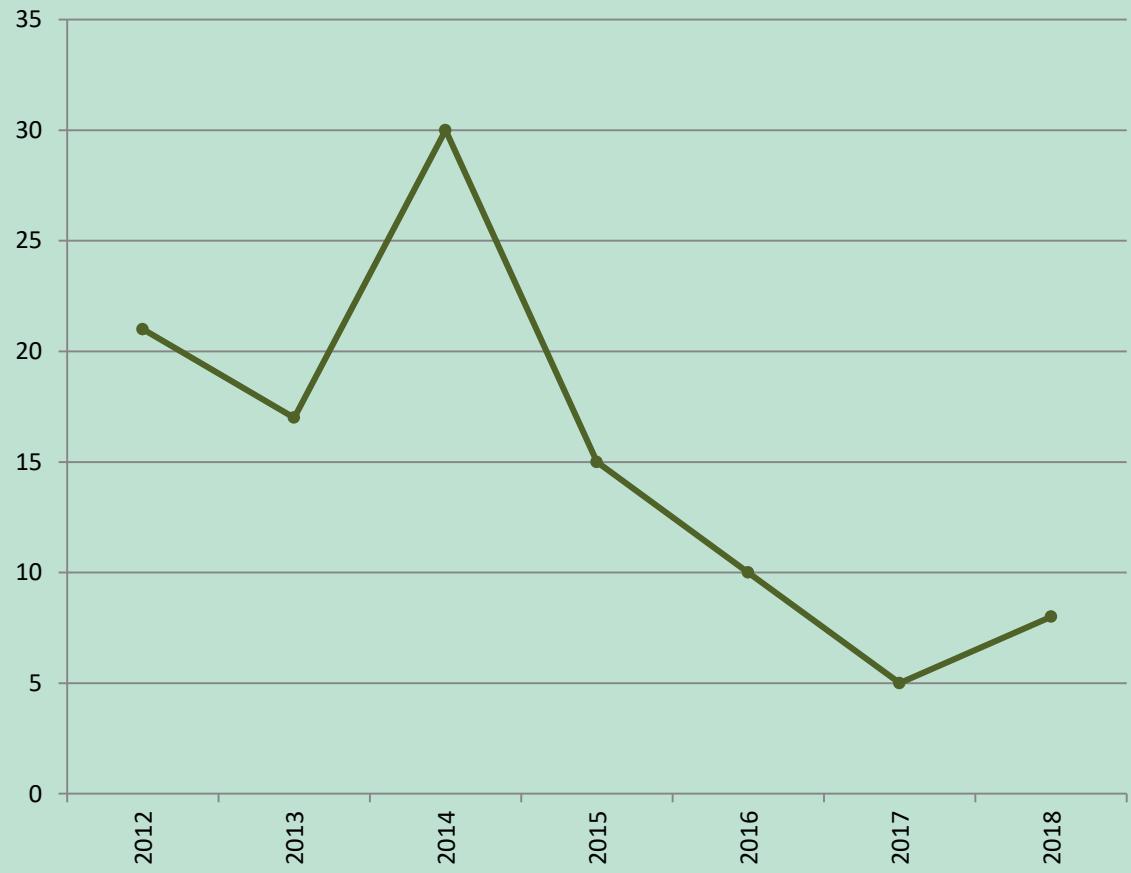

# Raccoon

- Sporadic observations
- Increasing population in Germany/Slesvig-Holstein
- Prevent establishing population

Game statistics raccoon 2012-2018

# Future actions for invasive predators

- **Cross borders and move between land owners**
- **Action financed only by government is not efficient (too few) and economically realistic**
- **Main targets:**
  - Mink and raccoon dogs
    - Control
  - Raccoon
    - Rapid eradication

# Thank you for Your attention
