

**LIFE operating grants for non profit making entities – organisations selected for funding in 2022**

<b>Beneficiary organisation</b>	<b>Annual EU funding requested (financial year 2022)</b>	<b>Percentage of EU financial contribution</b>	<b>Short description of organisation and funded activities</b>
WWF European Policy Programme	€ 625,000	16%	WWF EPO is the Brussels-based policy hub of the WWF European and global network. The main purpose of the office is to secure the strengthening of European legislation and policies particularly in the areas of climate and energy, biodiversity, forests, external development, marine conservation and fisheries protection, freshwater, resource efficiency and green economies. WWF EPO is a renowned partner of the EU for environmental and climate policy shaping and implementation.
Stichting BirdLife Europe	€ 400,000	22%	BirdLife Europe works with many member organisations across the EU and Central Asia to conserve birds and biodiversity by focusing on species, sites and habitats, ecological sustainability and engagement of people.
European Environmental Bureau	€ 700,000	12%	The EEB is a federation of more than 150 environmental citizens' organisations based in EU member states, accession countries and some neighbouring countries. The mission of the EEB is to protect and improve the environment in Europe and elsewhere and to promote knowledge and understanding of EU environmental and sustainable development policies amongst the general public in the EU. In particular, it works with environmental citizens' organizations and activists, to enable them to play their part in achieving that goal.
Stichting Fern	€ 245,000	15%	Fern provides information and analysis on the impact of EU policies and practices on forests. It works with partner NGOs to identify leverage points at EU level to help protect forests, strengthen peoples' rights and effectively address climate change and the biodiversity crisis.
Coalition Clean Baltic	€ 471,446	70%	CCB is a regional network of grassroots environmental NGOs located in several Baltic countries, committed to protection and improvement of the environment of the Baltic Sea catchment area. Their cooperation is built on the idea that national NGOs need

			international representation and cooperation to strengthen their impact on policy development and implementation.
NGO Platform on Shipbreaking	€ 305,000	70%	Shipbreaking Platform aims to prevent the dumping of end-of-life vessels containing hazardous waste on the beach of developing countries. It promotes clean, safe and just ship recycling globally in respect of human rights, core labour standards and environmental justice.
Pesticide Action Network Europe (Pan Europe)	€ 311,220	65%	PAN is the European branch of the global organisation PANS with over 600 members world-wide. Its objective is to promote reducing use of pesticide inputs and endorse sustainable alternatives, and to raise awareness on hazards from pesticide exposure for both human health and environment. PAN joins 32 members from 22 European countries (20 EU member states) ranging from environmental NGOs to human rights groups and food safety NGOs.
Friends of the Earth Europe	€ 700,000	25%	Friends of the Earth is a worldwide grassroots environmental network campaigning for an equitable, just and peaceful world. FoEE's work programme focuses in particular on making the EU more environmentally sustainable. It organises advocacy and awareness raising campaigns with ecological and climate change focus, which are particularly impactful.
WWF Central and Eastern Europe	€ 233,978	40%	WWF-CEE coordinates and leads WWF's conservation activities across the Danube-Carpathian region (covering 19 countries). Most of its programme focuses on trans-boundary issues, especially related to freshwater, forestry, sustainable development and mostly EU-related policy. Its main strategy is to combine model field activities with high-level advocacy and public awareness raising.
Wetlands International - European Association	€ 552,627	70%	WI-EA is a group of European NGOs working together to raise awareness about wetland ecosystems and to advocate the sustainable use of wetlands for people and nature, in particular by linking science, policy and practice.
MedPAN - Network for the managers of Marine Protected	€ 400,000	49%	MedPAN is the network of marine protected areas in the countries of the Mediterranean, which aims to ensure a strong and dynamic network of Mediterranean Marine Protected Areas to support the effectiveness of their management and

**LIFE operating grants for non profit making entities – organisations selected for funding in 2022**

Areas in the Mediterranean			contribute to improving policies at European, Mediterranean and international levels for a better marine environment.
Health and Environment Alliance	€ 700,000	50%	HEAL aims to protect the environment for strengthening people’s health. HEAL is active in Brussels and in the 27 EU member states through active, authoritative and diverse environmental health membership network, comprised of doctors, nurses, asthma and cancer patients, non-profit health insurers and many others. HEAL draws on its excellent science and non-governmental networks from around the globe for relaying new evidence to European policy-makers and sharing policy developments at the international level.
European Cyclists' Federation	€ 360,000	36%	The ECF is a network that covers all EU member states and also has many other member organizations from all over the world. It is a well-established network, with previous experience in managing EU funded projects, with a very good reputation. The primary mission of ECF is to advocate for an improved legal framework for increased and safer cycle use and to contribute to the objectives of the 7th EAP related to resource efficiency and safeguarding citizens from environment-related pressures.
International Federation of Organic Agriculture Movements - European Regional Group	€ 546,374	33%	The IFOAM EU Group advocates for sustainable food and farming and works for the development and integrity of the organic movement in Europe.
European Federation for Transport and environment	€ 700,000	8%	T&E is a large and influential European NGO working to develop and implement environmentally sustainable transport policies. It has already contributed to a number of high-profile EU policy changes such as binding standards for more fuel efficient cars and vans and more sustainable biofuels; inclusion of aviation in the EU ETS, introduction of green tyre labels, and smarter EU rules on the way lorries can be charged and designed.
Renewables Grid Initiative	€ 600,000	47%	RGI is a unique collaboration of NGOs and transmission system operators from across Europe engaging in an ‘energy transition ecosystem of actors’. The network promotes the development of a fair, transparent, sustainable energy grid to enable the growth of renewable energy sources, in order to achieve full decarbonisation in line with the Paris Agreement. RGI has 23 Members from 11 European countries and 1 supporting Member.

Seas At Risk Vzw	€ 550.000	35%	SAR's key objective is to see healthy oceans and productive ecosystems, and to maintain these for future generations. It works to ensure that marine resources are managed following an ecosystem-based approach, mindful of the precautionary and polluter pays principles. To this purpose, it strives to achieve full involvement of stakeholders at all levels of governance in all maritime activities.
Carbon Disclosure Project Worldwide (Europe)	€ 700,000	21%	CDP promotes a global system for corporations and cities to measure, disclose, manage and share environmental information related to climate change, water and forests.
Zero Waste Europe	€ 450,000	30%	ZWE has unique and strong expertise in developing work on waste and climate change. It works with other international partners to address these policy shortfalls and change them into opportunities, particularly in the context of emissions reductions policies and subsidies.
Carbon Market Watch	€ 205,000	34%	CMW is an umbrella organization active on three levels: at EU level to ensure that the policies related to climate and environment are adequate, at international level to advocate for stronger environmental and social integrity of UN climate mechanisms and at grassroots level to empower and enable civil society to have a stronger influence in policy development related to climate change.
Fundación Oceana	€ 700,000	23%	Oceana aims at making oceans more biodiverse by strengthening relevant policies. Its strategic plan for Europe is focused on pressing issues for the European marine environment: defending sustainable fisheries management in Europe; minimising single-use plastics reaching the ocean; reducing IUU fishing and building effectiveness of the MPA network in Europe.
CEEweb for Biodiversity	€ 67,200	70%	CEEweb is a network of nature conservation organisations based in Central and East Europe. It aims to protect biodiversity, promote sustainable development and raise public awareness on those themes.
CEE Bankwatch Network	€ 422,500	65%	CEE Bankwatch works on the environmental impacts of international finance in the Central and Eastern European region. Its mission is to prevent the environmentally and socially harmful impacts of international development finance, and to promote

			alternative solutions and public participation.
Slow Food	€ 460,000	41%	SF aims to promote a model of food production and consumption based on the concept of good, clean and fair food. It contributes to the design of sustainable food policies.
Federation of Associations for Hunting and Conservation of the EU	€ 241,453	24%	FACE works as an evidence-based organisation to provide technical expertise and insight to both the hunting community and decision makers on biodiversity policies relevant to the hunters' community. FACE's activities are structured around the two cornerstones of Europe's nature conservation policy: the EU Birds Directive and the EU Habitats Directive with focus on large carnivores. In the context of the European Green Deal, another essential pillar of work is the delivery of the EU Biodiversity Strategy for 2030.
Foderation der Natur - und Nationalparke Europas (Foderation EUROPARC) e.V.	€ 318,809	70%	The EUROPARC Federation aims to enhance and sustain Europe's natural heritage, by fostering international cooperation and networking. As the largest protected sites network in Europe, EUROPARC currently brings together about 400 members in 36 countries, whom themselves manage thousands of Natura 2000 and other natural protected areas.
Eurosite - the European Land Conservation Network	€ 118,680	70%	Eurosite is a membership organisation bringing together the managers of European protected sites and other stakeholders, working together for their vision – a Europe where nature is cared for, protected and valued by all.
Surfrider Foundation Europe	€ 400,000	36%	SFE aims to represent coastal and oceans community's interests when applied to ecological causes, and to address environmental threats to ocean water quality and the health of its users, focusing on fundamental issues such as marine litter and climate change.
Health Care Without Harm Europe	€ 598,000	49%	HCWH Europe aims to drive the European healthcare system to become environmentally sustainable and no longer a source of harm to the environment and human health. The work of HCWH Europe focuses on 7 main areas: healthy climate, safer chemicals, healthy and sustainable food, zero waste, clean air and water, green buildings and human rights. HCWH has considerable reach into the healthcare sectors of the countries where it is active, including strategic partners that can influence national policies.
