3. You can now post comments/questions or like existing ones.
4. Identify yourself when posting comments/questions. These comments will be considered with priority.

Innovation Fund Policy Context

Stefanie Hiesinger, DG CLIMA, Head of Unit

INNOVATION FUND

Deployment of net-zero and innovative technologies

Funded by: EU Emissions Trading System

Funding through
Grants and Auctions

EUR 40 billion* to invest from 2020-2030
in EU's climate neutral future

Avoid emissions and
boost competitiveness

Supporting manufacturing, production and use in:

Energy intensive
industries

Renewables

Energy storage

Carbon capture,
use and storage

Net-zero mobility
and buildings

*based on a carbon price of 75 EUR/tonne

Evolution of funding for the Innovation Fund – over EUR 3 bn was already provided for low-carbon innovation projects

Outlook for 2023

- Prepare the launch of the next calls for small, medium and largescale projects (tentatively planned for November 2023)
- Finalise the preparatory work on competitive bidding scheme for H2: legal terms & conditions published, governance and practical implementation aspects
- Revision of Delegated Regulation on the Innovation Fund to operationalise competitive bidding and make further improvements, including on simplification and increased threshold for small-scale projects
- More support to National Contact Points and extension of Project development assistance so we receive larger number of higher quality projects across the EU/EEA
- **But first, and foremost, we call on you to apply already to this small-scale call with very impactful projects in all eligible countries**
