

SUSTAINABLE & SMART MOBILITY STRATEGY

Topic 3: TA to the European RIS COMEX platform

General Envelope

Topic 3: RIS COMEX

- Technical Assistance to the European RIS COMEX platform
- Call ID: CEF-T-2024-TAGENEIA-IBA-RIS-COMEX-AC
- Coordinated application by one Member State

- Budget: **2 000 000 €**

Priorities

The technical assistance to the European RIS COMEX platform will support activities related to the European River Information System (EuRIS platform) carried out jointly and coordinated by a single Member State.

Only one application will be accepted from the collective group of Member States interested in this topic. All Member States are required to coordinate among themselves to ensure a single, unified application is submitted identifying clearly which Member State will be appointed as coordinator.

Objectives

- To support the transition into permanent operation of the digital European RIS platform from RIS COMEX (EuRIS)
- To keep the EuRIS platform operational to ensure that the service and support to EuRIS are in place. This will include the need to host the platform for fast, safe and secure access and interfacing
- The specific objective is to ensure that all parties and external partners can use the EuRIS platform to its full extend.

Activities

- Define and specify the necessary adaptations to the EuRIS platform to reflect the changes to be introduced by the update of Directive 2005/44/EC (RIS Directive);
- Set up the adequate governance structure for running the EuRIS platform
- Contribute to the preparation of the Implementing Act in line with revised Directive 2005/44//EC (set up the RIS platform);
- Secure the platform hosting with a permanent operational structure, including the anticipation of its growth,
- Preparation for taking on board the EC European Reference Data Management System- ERDMS and continue its operation within the platform;
- ensure the operation of the platform and its reliability in the long term.

Tasks

- Administration, including the management of documentation, different logs, and the plan of approach in relation to the project
- Keeping track of the financial aspects of EuRIS for hosting, and operation
- Organisation and follow up on invoicing and payments in relation to the project
- Preparation and organisation of project meetings on different levels
- Provide necessary legal support whenever required in relation to the project
Provide the technical solutions for hosting the RIS platform
- Operation of the RIS platform
