

GREEN ASSIST

Become an expert and help make European projects **greener**

The European Climate Infrastructure and Environment Executive Agency (CINEA) has launched an open campaign to encourage experts who can demonstrate 'on the ground' advisory expertise in green investment to apply to join the **GREEN ASSIST Roster of Experts**.

What is **GREEN ASSIST**?

GREEN ASSIST is a new advisory initiative delivered under InvestEU, with funding from the LIFE programme. It aims to provide **free, on-demand and customised** advisory services to project promoters who develop green investment projects in environmental or non-environmental sectors.

GREEN ASSIST

1

Supports project promoters to overcome the challenges of investing in sustainability

2

Strengthens the viability of projects to develop green investments

3

Enhances the sustainability/green dimension of investment projects

What are the benefits of applying to GREEN ASSIST?

There are many benefits to becoming a GREEN ASSIST expert.

Joining the Roster will allow you to:

CONTRIBUTE: Play a role in the implementation of the European Green Deal.

ADVISE: Gain recognition of your expertise through participation in an ambitious advisory initiative through InvestEU.

PARTICIPATE: Engage in challenging assignments where you will help project promoters transform their ideas into real projects for a competitive remuneration.

LEARN: Acquire new knowledge of the European Green Deal objectives/trends.

In addition, you will become part of the GREEN ASSIST community of experts, giving you the opportunity to participate in training and knowledge-sharing activities with peers and representatives from EU institutions. You will also have access to the expert helpdesk to get support and share ideas within the community.

What does it take to be a GA expert?

GREEN ASSIST is flexible about the experience and expertise needed to join the Roster. However, there are some criteria that need to be met to ensure you have the relevant competencies to support GREEN ASSIST advisory services.

To be added to the Roster, you should have:

1 A master's degree in a relevant field (economics, environmental sciences, finance, engineering, etc.).

2 Proficiency in English (at least C1 level).

3 At least four years of experience in one or more of the fields listed below.

Domains of expertise

Natural capital and biodiversity

Climate change adaptation and natural hazards

Climate mitigation

Sustainable spatial design

Environmental remediation (of air, water, soil)

Greening non-environmental sectors

Circular economy

Competencies

Business modelling and market studies

Other, such as market and sector studies, standards and certifications

Assessments and evaluation

Financing

How do I register as an expert?

If you are interested in offering your expertise, please visit the [GREEN ASSIST webpage](#) and follow the instructions to fill in the questionnaire and upload your CV.
