

The GHG emission avoidance calculation in practice

Final remarks

Your questions and our answers

- Manifest error automatically fails a proposal.
- Questions could be sent to the helpdesk during the opening period. We try to provide as clear answer as possible, but the final responsibility lies in your applicants' hands.
- To conclude, questions to helpdesk must come in a standalone (self-explanatory) fashion, by optionally including any brief application information that may be needed to make the question understandable.
