1.10. Description of security measures

Personal data is stored electronically and in paper and accessible only by the authorized personnel for the purposes of the processing on a need to know and need to do basis. Access is granted only if there is a clearly specified administrative purpose, and only to those whose role and level of responsibility require them to have access. HR staff having access to the data is bound by confidentiality.

The requests from staff concerning this topic processed via the HR ticketing system are subject to security measures that limit the access to information to the HR staff

member(s) in charge and to the Head of Sector and her/his backup. The protection and confidentiality granted to personal data submitted in the ticketing system is the same level of protection and confidentiality granted to secured HR folders. The ticketing system has an additional level of encryption of files attached to tickets that adds up to the file system access control rights. The text of a ticket is contained in a database which has an additional level of authentication that adds up to the file system authentication.

Electronic archives are kept in CINEA's Human Resources restricted CINEA Shared Drive and Functional mailbox and only accessible by designated staff members.

Individual personal files are created and stored in secure archives that are accessible only to authorised personnel. An electronic version of the personal data is stored by the Unit A.4. – HR Service and kept confidential with restricted access rights.

The datasets are safeguarded in the Data Center of the Commission, and therefore covered by the numerous defensive measures implemented by DG DIGIT to protect the integrity and confidentiality of the electronic assets of the Institution.

The access to the personal data is protected by the management of the access rights which are strictly limited to specific user groups. The entitlement is distributed according to the principle of 'the need to know' taking into consideration the function, the job and responsibilities of the applicant for an access right. Consequently, the access rights are continuously updated in accordance with the changes in the assignments of the jobholders.

The login and the passwords are managed by the common certification service of the European Commission (ECAS-authentication system). CINEA is also bound by Commission Decision 2017/46 of 10/1/17 on the security of communications & information systems in the EC.

Paper files are limited as much as necessary & kept in locked cupboard with limited access.

The responsible human resource managers in CINEA its administrative agencies (PMO, OIB) have access to the specific data they need to fulfil their management tasks. All further access to other persons must be communicated to the jobholder.
