

Engaging cities, industry and financial institutions in a 'renovation wave' of private and public buildings

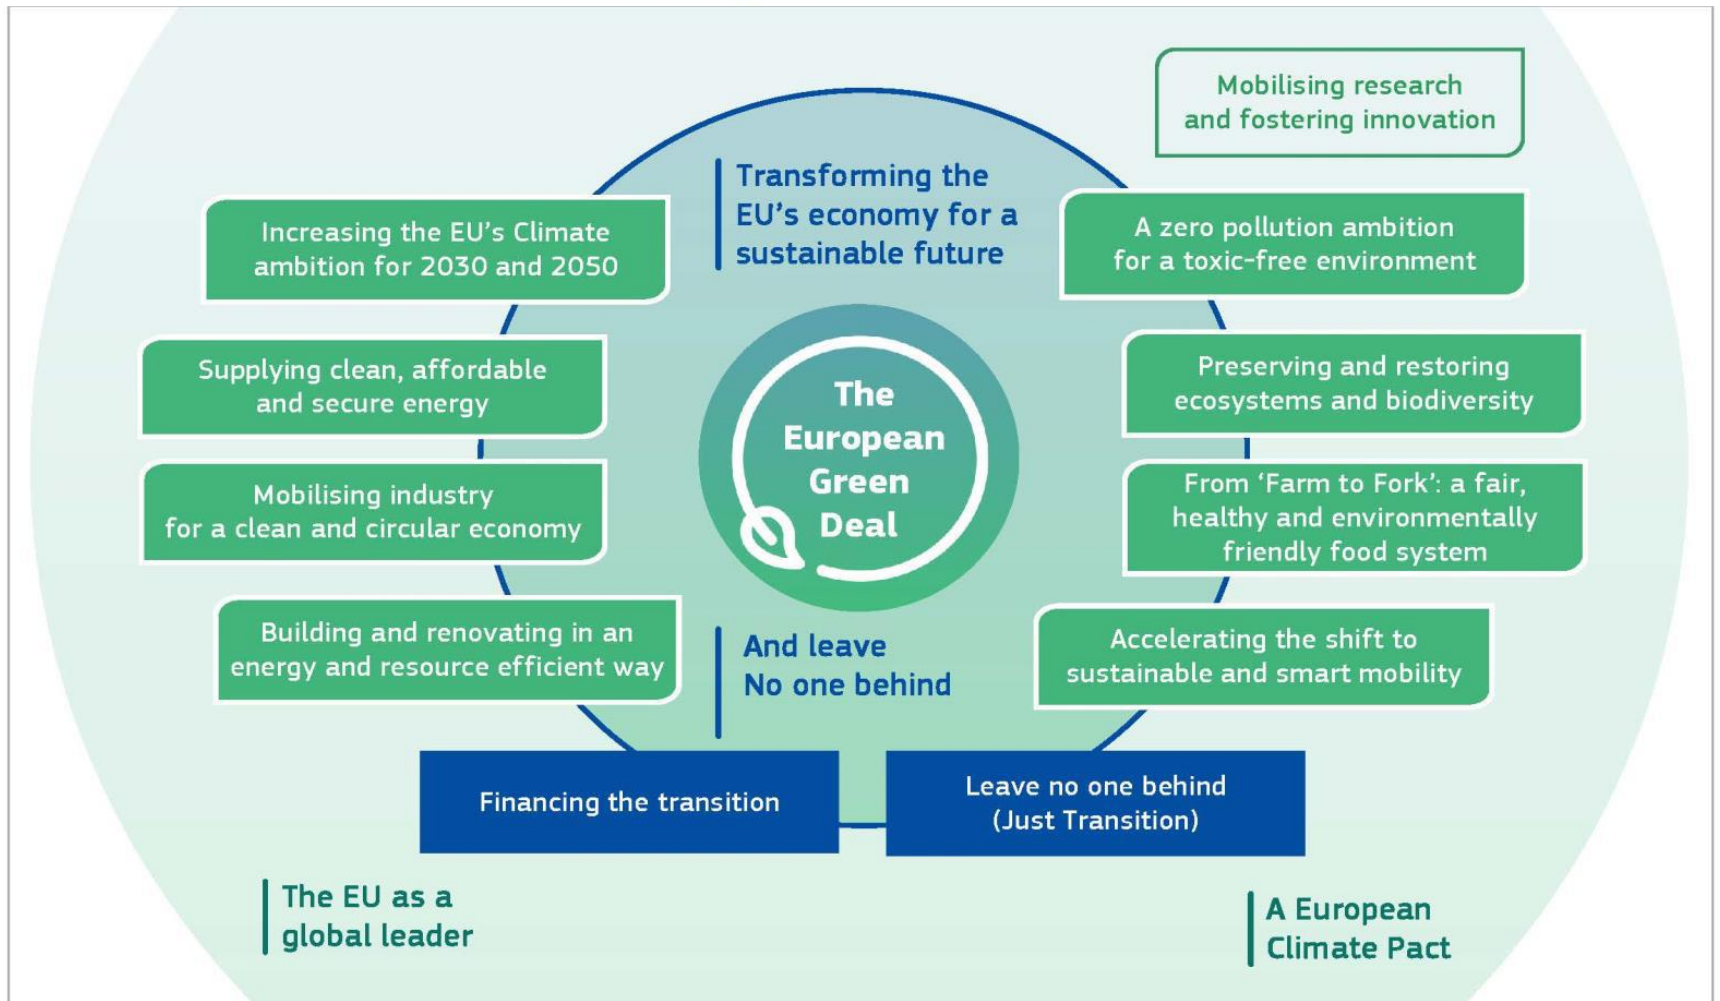

Paula Rey Garcia
European Commission DG Energy

CoM Investment Forum
Energy Efficiency Finance Market Place – 19 February 2020

The European Green Deal

Buildings: start a 'renovation wave' of public and private buildings

➤ Buildings account for
40% of energy consumed

Source: Eurostat, Energy balances 2019 edition, final energy consumption in year 2017.

The current rates of renovation of public and private buildings should at least double

Strict enforcement of rules on energy performance of buildings

An integrated Strategy, with an Action Plan to gradually tackle barriers to renovation over time

- ✓ Major initiative with a Commission Communication to attract political attention to engage the reforms that are needed
- ✓ Concerted action at all levels, from the local to the regional, national and European
- ✓ Strategic action plan for the years to come

Encompassing approach for residential & non-residential buildings, coupled with focus areas

Leave no one behind

Help the **50 million** consumers to keep their homes warm

Renovate **social housing, schools and hospitals**

A circular inset image showing two construction workers wearing hard hats and high-visibility vests, standing on a construction site. They appear to be reviewing plans or discussing the work.

Particular attention will be paid to the renovation of social housing, to help households who struggle to pay their energy bills.

Open Platform supporting the building renovation wave

The Commission will launch an open platform bringing together the buildings and construction sector, architects and engineers and local authorities to:

- Develop innovative financing possibilities
- Promote energy efficiency investments in buildings
- Pool renovation efforts into large blocks to benefit from economies of scale

Get your inputs, give your views, share your experience

- Main barriers and market pulls factors
- How to connect projects and finance?
- Focus areas, how best to tackle them?
- Open Platform- how best to support boosting renovation rates?

Thank you
