

## CINEA'S VISION

The European Climate, Infrastructure and Environment Executive Agency plays a key role in supporting the EU Green Deal through the efficient and effective implementation of its delegated programmes.

It is a dynamic and innovative working place, where professional and experienced staff feel empowered and committed to achieve the organisation's mission and strategic objectives.

The Agency fosters an efficient knowledge sharing and synergies between its different programmes and establishes strong partnerships with its stakeholders.

## CINEA'S MISSION

Supporting stakeholders in delivering the European Green Deal through high-quality programme management that helps to implement projects contributing to decarbonisation and sustainable growth.

CINEA's long-standing experience in programme management provides the beneficiaries with:

- Simplified access to EU funding opportunities
- Streamlined and harmonised procedures for a better use of EU funds and maximised programme efficiency, such as shorter payment times and faster response rate
- Promotion of project results and achievements for increased visibility of EU funded actions
- Efficient evaluation procedures, user friendly and transparent call documentation, and customised IT tools to support applicants
- Guidance and technical support in project management, financial engineering, public procurement, and environmental legislation in close collaboration with beneficiaries

The Agency is also supporting the European Commission with:

- Relevant feedback on programme implementation as input to policymaking
- Bringing innovative ideas, concepts and products to implementation
- Developing synergies between programmes
- Building significant economies of scale

# ABOUT CINEA

Supporting the European Green Deal

CINEA is the Executive Agency established by the European Commission to implement parts of EU funding programmes for transport, energy, climate action, environment and maritime fisheries and aquaculture.

## ORGANISATION

CINEA has a multinational team, organised in four departments.

Seven European Commission's Directorates-General oversee CINEA's activities:

- DG Mobility & Transport (MOVE)
- DG Energy (ENER)
- DG Research & Innovation (RTD)
- DG Climate Action (CLIMA)
- DG Environment (ENV)
- DG Maritime Affairs and Fisheries (MARE)
- DG Regional and Urban Policy (REGIO)

## MANAGING PROGRAMMES WORTH OVER €55 BILLION

The **Connecting Europe Facility (CEF)** is a key EU funding instrument that supports the development of vital, modern infrastructure and sustainable and interconnected Trans-European Networks in the fields of:

- Transport
- Energy
- Digital

Between 2021 and 2027, CINEA will manage over €31 billion for projects in the fields of transport and energy, aiming to support the construction and upgrade of vital infrastructure, speed up decarbonisation and encourage the roll-out of smarter and safer solutions.

**Horizon Europe** is the EU's €95.5 billion research and innovation framework programme running from 2021- 2027. It supports top researchers, innovators and citizens to develop the knowledge and solutions needed for a sustainable, fair and prosperous future for people and our planet.

Horizon Europe will leverage synergies across the EU funding programmes.

CINEA implements the programme's cluster dedicated to **Climate, Energy and Mobility** actions, for a total amount of around €9.6 billion over seven years.

The **LIFE Programme** is the only EU funding programme entirely dedicated to environmental, climate and clean energy objectives. With a budget of around €5.4 billion for the 2021-2027 period, LIFE will support actions in the areas of:

- Nature and biodiversity
- Circular economy and quality of life
- Climate change mitigation and adaptation
- Clean energy transition

The **Innovation Fund (IF)**, financed from revenues from the EU Emissions Trading System, may amount to around €10 billion for the period up to 2030. It contributes to greenhouse gas (GHG) reduction by focusing on:

- Innovative low-carbon technologies and processes in energy intensive industries (steel, cement, glass, chemicals, paper, etc.)
- Carbon capture and utilisation (CCU)
- Construction and operation of carbon capture and storage (CCS)
- Innovative renewable energy generation
- Energy storage

The **European Maritime, Fisheries and Aquaculture Fund (EMFAF)** targets public support for the Common Fisheries Policy (CFP), the Union's Maritime Policy and the EU's agenda for international ocean governance.

Between 2021 and 2027 CINEA will manage €0.3 billion to support the European Green Deal with activities focusing on:

- Farm2Fork (including sustainable fisheries and aquaculture)
- Offshore renewable energy
- Biodiversity
- The Circular Economy

The **Just Transition Mechanism** is a key tool to ensure that the transition towards a climate-neutral economy happens in a fair way, leaving no one behind. It provides targeted support to help mobilise at least €150 billion over the 2021 to 2027 time-frame.

CINEA will manage €1.5 billion under the **Public Sector Loan Facility** – which will contribute to leveraging public funding, to help the most affected regions to alleviate the socio-economic impact of the transition.

The **Renewable Energy Financing Mechanism** supports the achievement of the EU's renewable energy targets by increasing investments in production capacity. CINEA will manage €0.5 billion between 2021 and 2027, supporting projects that contribute to the Clean Energy Transition, and the European Green Deal.
