

CEF Transport

NEXT-E

Accelerating the deployment of electric vehicle (EV) and multi-standard charging infrastructure

EV Charging Italy

A reliable network of fast multi-standard chargers for electric vehicles along the TEN-T network in Italy

EcoInnovation

THIOTUBES

A complete acid resistant sewage system. A green solution for today's waste water problems

EMFF

BIOGEARS

Biobased gears as solutions for an eco-friendly offshore aquaculture sector

FISH4FISH

FISH chitinolytic biowastes FOR FISH active and sustainable packaging material

KELP-EU

An innovative, sector-leading seaweed biorefinery - enabling the European blue circular economy

Horizon 2020/Europe Transport

ALMA

Advanced Light Materials and processes for the eco-design of electric vehicles

REVOLUTION

Supporting the Electric Vehicle REVOLUTION through maximising EV Range and End-of-Life Vehicle Recovery through optimisation of recycled plastics and advanced light materials

MORPHO

Embedded Life-Cycle Management for Smart Multimaterials Structures: Application to Engine Components

LIBERTY

Lightweight Battery System for Extended Range at Improved SafeTY

LIFE

LIFE MycoRestore

Innovative use of mycological resources for resilient and productive Mediterranean forests threatened by climate change

LIFE Waste2Protein

Pilot plant for insect protein production from biowaste as sustainable alternative to fish and soy meal for animal feed

LIFE-LIBAT

Recycling of primary Lithium BATtery by mechanical and hydrometallurgical operations

LIFE LEACHLESS

Low energy treatment technology for leachate valorisation

LIFE ECOMETHYLAL

High quality methylal from non-recyclable plastic waste by an improved Catalytic Hydro-Gasification Plasma (CHGP) process

**CINEA projects
participating in
#ECOMONDO2021**

**Funding a
Green Future
for Europe**

ALGAENAUTS

Eco-friendly and sustainable new family of biopesticides based on microalgae via circular economy approach

BLUEINVEST

Connecting the blue economy ecosystem

**European Climate, Infrastructure
and Environment Executive Agency
(CINEA)**

European
Commission
