

SAVing Mediterranean  
Forests from Invasions  
of Xylosandrus beetles  
and associated  
pathogenic fungi

## PROGRAMME

This project is co-financed by the  
Life program of the European Union through the  
LIFE17 NAT / IT / 000609 Grant Agreement  
Project start: 1/07/2018 / Project end: 30/06/2022

MAY 27<sup>TH</sup>, 2022 - BOTANICAL GARDEN OF ROME

# RECOGNIZING AND COUNTERING XYLOSANDRUS spp. IN NATURAL AREAS RESULTS FROM THE LIFE SAMFIX PROJECT

9.30 - 10.00

## Participants registration / Welcome coffee

10.00 - 10.30

## Welcome greetings

Director of the Botanical Garden Museum of La Sapienza University of Rome - Prof. Fabio Attorre

Director of Lazio Region Environment Directorate - Vito Consoli

President of the Circeo National Park - LIFE SAMFIX coordinator - Giuseppe Marzano

10.30 - 13.30

## Problems, intervention protocols and support technologies

10.30 | Presentation of the SAMFIX Project

Daniele Guarneri, Circeo National Park

10.45 | Acknowledging Xylosandrus and their damage

Prof. Massimo Faccoli, University of Padua (Insects)

Carmen Morales Rodriguez, University of Tuscia (DIBAF) (Associated fungi)

11.15 | How did they get here?

Teddy Urvois, Institut National de Recherche pour l'Agriculture, l'alimentation et l'Environnement (INRAE)

11.30 | Prevention: reducing vulnerability through forest interventions

Prof. Paolo De Angelis, University of Tuscia (DIBAF)

12.00 | Early warning and monitoring

Prof. Stefano Speranza, University of Tuscia (DAFNE)

12.30 | Containment

Alain Roques, INRAE - Alberto Signoriello, Circeo National Park

13.00 | Support technologies: SAMFIX Agent & X-traps

Claudio Belli, TERRASYSTEM srl

13.30 - 14.30

## Lunch

Buffet in the spaces outside the conference room

14.30 - 17.00

## Round table: replicability prospects - discussion and conclusions

Extension of the protocols in Lazio and future prospects

Luigi Dell'Anna, Lazio Region

Expansion of Xylosandrus in Spain, interventions and prospects

Diego Gallego, University of Alicante (Spain)

Expansion of the Xylosandrus in France, interventions and prospects

Alain Roques, INRAE

SAMFIX support to counter the expansion of Xylosandrus in the Mediterranean

Alberto Signoriello, Circeo National Park
