11:00	Q&A session
	Slido #JTMPSLF2023

## PUBLIC SECTOR LOAN FACILITY under the Just Transition Mechanism

On 9 February 2023, CINEA will organise the second Info Day of the public sector loan facility of the Just Transition Mechanism in collaboration with DG REGIO and the European Investment Bank (EIB). The session will outline the main features of the facility and will explain in further detail how to receive the available financing. It will also build on the lessons learnt from the first proposals received under the facility and provide the best practices and tips on preparing a successful proposal. The Info Day will be interactive and participants will be invited to contribute and ask questions via <a href="slickop">slickop</a> (#JTMPSLF2023).

The public sector loan facility is the third pillar of the Just Transition Mechanism, a key tool to ensure that the transition towards a climate-neutral economy happens in a fair way, leaving no one behind. The facility supports projects addressing social, environmental and economic challenges deriving from the transition to the Union's climate target objectives. It will mobilise investments by combining EIB loans (up to EUR 10 billion) with EU grants (up to EUR 1.5 billion), which will help public sector entities in the most affected regions to meet their transition t needs towards a climate-neutral economy.

Any public sector entity wishing to finance a project located in or benefitting a just transition territory may submit a proposal through the call for proposals (open as of 19 July 2022) with three cut-off dates per year. For more details about the call for proposals, please visit the <u>call page on the Funding & Tenders Portal</u> or watch the <u>recording of the first Info Day.</u>
