CINEA

CINEA Funding opportunities for blue economy

Connecting Europe Facility - Energy

- **Objectives**: enhancing the EU's security of energy supply, interconnecting energy networks, integrating energy from renewables (RES) into the transmission networks, enhancing cross-border (CB) cooperation between Member States in planning and development of RES, developing smart energy network and CO2 transportation systems
- **Examples of eligible for funding activities**: detailed marine surveys, studies along the route of coastal energy transmission infrastructure, construction of CB electricity infrastructure, conceptual & feasibility studies and implementation works for CB RES (e.g. offshore wind parks)
- **CEF-E Budget**: over €5.8 billion in 2021-2027

2023 Funding Opportunities

Open Call:

Projects of Common Interest (PCIs) Call within TEN-E- electricity, CO2, smart grids and natural gas

Deadline: 5/9/2023, Budget: ~ €750 mln

Eligible applicants: 5th PCI list promoters

Upcoming Calls For Co-operation on Renewable Energy:

➤ Cross-Border RES Call Preparatory Studies

Dates: to be launched **9/2023**

Foreseen budget tbc

Eligible: organisations interested in development of a future CB RES project

➤ Cross-Border RES Call Works +Studies

Dates: to be launched **11/2023**

Foreseen budget tbc

Eligible: promoters of cross-border RES projects having received a CB RE S **status**

➤ Cross-Border RES Status Call

Dates: to be launched **11/2023**

Eligible applicants: CB RES project developers

Advantages: eligible for CEF funding, visibility, easier permitting
