Connecting Europe Facility (CEF) 2021-2027

- Develop and modernise the trans-European networks in the fields of transport, energy and digital
- Emphasis on synergies among sectors
- Push the decarbonisation commitments

CEF Programme

€33.71 billion

* Including CEF Digital managed by HaDEA
Connecting Europe Facility (CEF) 2021-2027

€33.71 billion

- CEF Digital
- CEF Transport
- CEF Energy
  - €5.84 billion for:
    - PCIs: Projects of Common Interest
    - CB RES: Cross-border projects in the field of renewable energy (up to 875 M € subject to market uptake)
CEF Energy approved actions 2014 – 2023

- EUR 1.66 billion already allocated to PCIs
- EUR 22.7 million already allocated to CB RES projects
- CEF Energy plans to invest more than EUR 4 billion by 2027
- Overall, Up to EUR 0.85 billion reserved for CB RES, depending on market uptake

14 November 2023
European Green Deal and REPowerEU in perspective

- **2018**: RED II, 32% RES share by 2030
  - Fit for 55 proposal
  - 55% GHG by 2030
  - 38-40% RES share

- **2021**: Emergency Regulation
  - Temporary regulation to speed up permitting

- **12/2022**: Fit for 55 proposal
  - 55% GHG by 2030
  - 42.5% RES share

- **2030**: Objective: Net-zero climate neutrality
  - 42.5% RES share target

- **2019**: European Green Deal
  - Climate Law
  - Climate neutrality target

- **05/2022**: RePowerEU due to Russian invasion in Ukraine
  - 45% RES share proposal by 2030 + accelerate permitting

- **03/2023**: RED revision
  - Provisional agreement
  - March 2023

**Increase energy security**

**Reduce energy costs & create jobs and economic growth**

**Tackle climate change & reduce dependence on fossil energy**

**Meet international obligations (Paris Agreement, SDGs)**

**Innovation and technological advancements**
Role of renewables and CB RES

- New Renewable Energy Directive increased EU target for renewable energy by 2030 – 42.5%, together with streamlining of permitting procedures

- Emergency regulation from December 2022 to accelerate the deployment of renewable energy sources

- Rapid roll out of solar and wind energy projects combined with renewable hydrogen deployment to save around 50 bcm of gas imports – role of CB RES projects
CB RES in the context of the EU objectives

- Facilitate RES integration through energy storage - Power to X, batteries, conversion facilities
- Uptake of innovative renewables technologies - A new indicative target of 5% for innovative technologies was introduced
- Promoting cooperation between Member States and also 3rd countries based on mechanisms in RED II
- Contribute to the EU's Long Term decarbonisation Strategy
- EU target achievement - Demand for over 1000 GW in 2030 compared to 400 GW today
Key policy aspects to be reflected

- Focus on renewable generation as main objective of the call
- Different approach between ‘RES’ and ‘non – RES’ components
- **Studies**: differentiation between ‘RES’ and ‘non – RES’ components not relevant for study proposals; ‘project as a whole’ approach
- **Works**:
  - priority for RES components
  - margin for non-RES components subject to Article 7(4) of CEF Regulation and Article 3 of the Delegated Regulation 2022/342
  - Avoid overlaps with TEN-E and CEF-PCI funding
Evaluation process and award criteria

2. EC Inter-Service Consultation
3. Consultation of CEF Coordination Committee Information of the European Parliament
4. Adoption of Commission Selection Decision
5. Information to Applicants Launch of Grant Agreement Preparation
Admissibility and Eligibility
Admissibility - Proposals must be...

- submitted before 6 February 2024 17.00 CET
- submitted electronically via the Funding & Tenders Portal. No paper submissions!
- complete. There will be no follow-up on missing elements.
- readable, accessible and printable.
- limited to maximum 120 pages (Part B).
Eligibility

• Proposed project contributes to CB RES projects as identified in the Commission Delegated Regulation (EU) 2022/342

• Studies: activities needed to prepare CB RES project implementation, such as preparatory, mapping, feasibility, evaluation, testing and validation studies, including in the form of software, and any other technical support measure, including prior action to define and develop a CB RES project and decide on its financing, such as exploration of the sites concerned and preparation of the financial package.

• Works: purchase, supply and deployment of components, systems and services including software, the development, construction and installation activities relating to a CB RES project, the acceptance of installations and the launching of a project

To note: While CEF Energy does not finance technological development, in justified cases, studies can include also pilot projects, such as pilot plants, that are eventually needed to test technologies that are at TRL 7-8, innovative processes or techniques. Such pilot projects should be strictly related to eligible components of the CB RES project.
CB RES project VS CEF proposed actions

• The CB RES project included on the CB RES list forms the wider picture
  ➢ Ensure coherence of the proposed CEF action with the CB RES project
  ➢ Make explicit when and how the proposed CEF action contributes to the CB RES project
What could be the scope of an action?

RES generation aspects

non-RES components provided that they comply with art.3 of the DA

both the RES generation and non-RES components, including integration aspects
Studies scope: Examples

- Feasibility studies aimed that collecting the necessary data needed to choose the best RES technologies according to the project’s needs
- Technical studies requested to obtain the construction permits for RES and non-RES components
- Environmental impact assessments, either for the overall CB RES project or a part of it
- On-site studies (e.g. seabed studies)
- Front End Engineering and Design (FEED) studies
Works scope: Examples

- RES components
- Transmission facilities necessary to connect the RES components
- Storage and conversion facilities necessary for the RES components
Eligibility of participants

The applicants (beneficiaries and affiliated entities) must:

• be **legal entities** (public or private bodies)

• be **established in one of the eligible countries**, i.e.:

<table>
<thead>
<tr>
<th>EU Member States</th>
<th>Non-EU countries</th>
</tr>
</thead>
<tbody>
<tr>
<td>Including overseas countries and territories (OCTs)</td>
<td>listed EEA countries and countries associated to the CEF</td>
</tr>
</tbody>
</table>
Operational capacity

• know-how, qualifications and resources to successfully implement the projects

• demonstrated in:
  
  • Implementation plan (Application Form B – Section 3.1.)
  • applicants’ activity reports of last year

• exemption: Public bodies, Member State organisations, TSOs and international organisations
Financial capacity

• stable and sufficient resources to successfully implement the project.

• checked (if selected) on the basis of the documents you will be requested to upload in the Participant Register during grant preparation

• Exemptions:

  • Public bodies, Member State organisations, TSOs and international organisations

  • if the individual requested grant amount is not more than EUR 60 000.

<td><strong>15</strong></td>
<td><strong>25</strong></td>
</tr>
</tbody>
</table>
Priority and urgency of the Action

• Demonstrate contribution to sectoral policy objectives and explain alignment with the EU 2030 climate and energy targets, in particular RES

• Explain advantage of EU level action compared to national level action

• Synergetic elements, if applicable, need to significantly improve the socioeconomic, climate or environmental benefits of envisaged cross-border RES project

• For Works: Priority will be given to proposals with proportionally high RES generation component + non-RES component essential for the RES generation
Maturity

- **Steps** completed or envisaged + confirmation that the project can be carried out without delay

- Sufficient **maturity** to be financed under this call, project is the **next logical step** in the CB RES project development

- **Information on cooperation mechanism** (e.g. bilateral meetings, draft Letters of intent or similar, etc.)

- **pending legal, administrative or technical issues**, such as procurement, permits
Quality

- **Resources** needed (financial and human) to implement the project
  - *Project management* costs should not exceed 10% of total project costs
- **Organisational structure** and cooperation between applicants
- **Project management**, quality assurance and control procedures
- **Identified risks and mitigation measures**
Impact

• Assessing the need to **overcome financial obstacles** such as those generated by insufficient commercial viability

• Assessing its cross-border dimension

• For works:
  
  • assessing, the economic, social and environmental impact, including the climate impact
  
  • significant costs savings and/or benefits
Catalytic effect

• Explain how the EU grant will facilitate or accelerate the envisaged cross-border RES project

• Gap in the financing of the project

• Indicate whether you expect any EU support under the Recovery and Resilience Facility (RRF)
Evaluation results
Results of the evaluation

- All proposals will be informed about the evaluation result. Successful proposals will be invited for grant preparation.

- Invitation to grant preparation is **NOT a formal commitment** for funding—various legal checks before grant award: legal entity validation, financial capacity, exclusion check, etc.

- If you believe that the evaluation procedure was flawed, you can submit a complaint.
Grant preparation

• Successful applicants will be invited by CINEA to prepare the Grant Agreement

• Grant preparation involves a dialogue in fine-tuning of technical and financial aspects

• Provisions are defined in the Model Grant Agreement and non-negotiable

• The Model Grant Agreement can be found on Portal Reference Documents

Drafting and submitting your proposal

Theresa KOENIG
Project Adviser, Unit B4, CINEA

Virtual Info Day
14 November 2023
Overview

- Terminology: Concepts and examples
- Quality of proposal
- Applicant’s Checklist
Terminology (I)

• **Project:** The term ‘project’ is synonymous to the term ‘action’ used in the CEF Regulation (see definition article 2)
  
  • clearly state whether you are referring to your proposed action or the envisaged CB RES project.

• **Work Package:** a major subdivision of the project
  
  • Ex: Project Management, Preparation of Memorandum of Understanding, Conceptual design, Preparation of CBA
  
  • WPs can run in parallel and/or be sequential
**Task**: subdivision of WPs

- Ex: coordination meetings, project monitoring, Meetings with MS authorities, drafting of cooperation agreement, calculation of cost of generation of energy.
- Estimate percentage of subcontracting for each task.
- Do not define sub-tasks.

### Terminology (II)

<table>
<thead>
<tr>
<th>Task No (continuous numbering linked to WP)</th>
<th>Task Name</th>
<th>Description</th>
<th>Participants</th>
<th>Subcontracting (Yes/No and Percentage of the task that will be subcontracted)</th>
</tr>
</thead>
<tbody>
<tr>
<td>T1.1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>T1.2</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Terminology (III)

• **Milestone**: major control point in the project that helps to chart progress
  • Ex: publication of a tender, award of a contract, signature of contract, completion of documentation for permits application,

• **Deliverable**: project output (do not need to be linked to Milestone)
  • Ex: finalised geological study, finalised pre-FEED study of interconnector, completed report of public hearings, Basic Engineering (FEED), procurement management plan

Complementary in content and timing!
Quality of proposal (I)
What is the reader looking for?

1. Simple language (avoid jargon)
2. Information easy to find
   - The evaluation is based on the content provided in the application form. No assumptions or requests for additional information will be made.
3. Mandatory annexes
4. Relevant maps, graphs etc. (voluntary annexes)
# Scope of the project

<table>
<thead>
<tr>
<th>What is the project about?</th>
<th>Who will carry out the project?</th>
</tr>
</thead>
<tbody>
<tr>
<td>What are the technical parameters?</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>How and when will the project's objectives be reached?</th>
<th>Why are you proposing this action? What are the expected results of the project?</th>
</tr>
</thead>
</table>
What?
• Engineering studies to acquire data needed for the FEED stage
• On site collection of X, Y and Z data; construction of a biomass plant with a capacity of X MW

Who?
• BEN 1 will carry out the study; the construction of the windmills will be carried out by BEN 2 via subcontracting; etc.
• Subcontracting per WP

Why?
• Fully functioning RES installation with X MW capacity; approval of permitting documents; etc.

How and when?
• WPs, Tasks, Milestones, Deliverables

Clearly explain how the project will contribute to the CB RES project
Work Packages

WP & Objectives

• Clear WP name matching its description.
  ➢ E.g.: preparation of the EIA

• What are the objectives of the WP?
  ➢ E.g.: preparing the documentation for the EIA

Tasks, Milestones and Deliverables

• What are the tasks in the WP?
  ➢ E.g.: data collection, drafting of legal documents

• What are the Milestones?
  ➢ E.g.: Subcontractor selected; first set of EIA documents ready for signature

• What are the deliverables?
  ➢ E.g.: finalised EIA documentation
3 Rules of thumb

1. Each work package should have at least 2 milestones.

2. Milestones and deliverables should complement each other, not overlap.

3. Work packages lasting >1 year, ideally at least one milestone every 12 months.

4. Means of verification should be reliable and realistic.
   - Ex: Publication of the notice of the tender in the OJEU, Contractor's progress report approved
Each work package should have at least 2 milestones START → END.

<table>
<thead>
<tr>
<th>Milestone No.</th>

</tbody>
</table>
Coherent and consistent

Make sure that a "common thread" runs through your proposal combining objectives, WPs, resources and planning in a way that is coherent with achieving the stipulated deliverables.

• Information in one part of the application matches the information in another part.
  ➢ E.g: supporting documents do not contradict the info in application form part B, Gantt chart is consistent with the work package dates, milestones, etc.

• Information is presented in a logical way.
  ➢ E.g: administrative procedures are presented in chronological order in the work package table, basic study finalised before design study starts.
To note

• Justification of resources and connection to the project’s scope
  ➢ E.g. Human resources: feasibility study, 2 staff members (what for? For coordination of inputs from contractors or for carrying out complex technical analysis).
  ➢ Project management costs should not exceed 10% of total project costs

• Level of detail for the risk assessment and the complexity of the project
  ➢ adequate mitigation measures
Duration of the project

- **Start date**
  - A) Same as GA signature date (Default option)
  - B) After GA signature date (If agreed with CINEA during GAP)
  - C) Before GA signature date (If agreed with CINEA during GAP, but never before submission date)

- **Closure date**
  - By 31/12/2028

Annual activity report

- Requested in order to verify operational capacity for each applicant/beneficiary
- Should be the regular activity report prepared for the board, shareholders, public etc., not anything specific prepared for this proposal.

Not needed for: Public bodies, Member State organisations, transmission system operators certified under Directives 2009/72 or 2009/73 and international organisations
Agreement by the concerned Member States (Letter of support)

• Signed by the ministries in charge of implementing the (future) cooperation agreement

• “Member State concerned” is the Member State in the territory of which the proposed project is planned to be implemented.
  
  • In the case of studies without physical intervention, the Member State concerned is the country of the applicant.

• In the case of projects in associated countries, the Letter of support needs to be signed by the competent authorities of the associated country as well as a neighbouring Member State

Note: the letter of support can be signed by the regional level, provided that it has competence on the implementation of the envisaged CB RES project. In that case, provide official evidence of regional competence.
Applicant’s checklist (I)

• **Scope**: Does your proposal fit in the scope of the 2023 Work Programme and the call for proposals for which you are applying?
  - Check that your proposed project indeed addresses the objectives and results expected from the call. Consult the call text and the Work Programme. Remember, your proposal will be evaluated against the criteria specified for the call only based on the information you provide in your application.

• **Deadline**: Are you on track to submit your proposal by 6 February 2024 at 17:00.00 (Brussels time)?
  - Don’t forget to submit your application before the deadline, verify that your proposal was correctly submitted - the status of the application must be "submitted".

  *Don’t leave submission to the last day!*
Applicant’s checklist (II)

- ...encode all sections of application form part A directly in the F&T platform
- ...read through, complete and upload application form part B, available as a Word document
- ...attach all mandatory annexes.
Applicant’s checklist (III)

• Proofread your proposal
  • Do one last check to ensure that your proposal is clear and easy to follow and explain issues, including local context, that may be evident to you
  • Evaluators can only assess your proposal on the basis of provided information and no assumptions will be made
  • Make sure that your proposal is precise, clearly responds to the questions asked, and demonstrates the added value of CEF Energy funding

• Make sure that you submit the proposal using the application forms and templates provided on the portal – the use of those forms is compulsory
Budget management in proposals & Procurement

Gianluca FERRERI
Head of Sector, Unit B4, CINEA

Virtual Info Day
14 November 2023
Budget requirements for proposals

I. Detailed budget breakdown per cost category
II. Detailed budget table per work package
III. Public procurement aspects

NOTE: I and II are mandatory to be encoded/ submitted with each proposal
I) Detailed budget breakdown per cost category

- Structured financial information – encoded directly via the Funding & Tenders portal
- Based on **five cost categories**: A. personnel, B. subcontracting, C. purchase, D. other cost categories and E. indirect costs
- To be encoded **per participant** and affiliated entity

_NOTE: cost categories “E. indirect costs” and “D.1 Financial support to third parties” are not applicable under this call and are only listed due to IT system constraints in the eGrant environment_
I) Detailed budget breakdown per cost category

• A. Personnel cost

• B. Subcontracting costs: contracts for goods, works or services that are part of the proposed project’s tasks

• C. Purchase costs: contracts for goods, works or services needed to carry out the proposed project (e.g. travel, subsistence, equipment, consumables and supplies) but which are not part of the proposed project’s tasks

**NOTE:** project management costs should not exceed 10% of total costs for the project; costs exceeding this limit will be rejected during grant preparation

**REMINDER:** procurement rules to be respected

II) Detailed budget table per work package

- Encoded in an Excel file available for download and to be uploaded after completion (unstructured financial information)
- Based on costs per work package (several work packages are possible)
- To be encoded as totals per work package, per applicant (several applicants per work package are possible) and per reporting period
- Calculates the totals per work package and per applicant for each reporting period

Points of attention for budget planning and structure

• **Total costs must match** between the tables per cost category (structured) and per work package (unstructured financial information)
  
  • In case of divergences the information per cost category in the **structured data will prevail**

• **Plan and prepare your accounting**: any cost foreseen to be claimed for reimbursement must be clearly attributable under both approaches (cost categories and work packages)
B. Subcontracting costs: contracts for goods, works or services that are part of the action tasks

C. Purchase costs: contracts for goods, works or services needed to carry out the action (e.g. equipment, consumables and supplies) but which are not part of the action tasks

- C.1 Travel and subsistence; C.2 Equipment; C.3 Other goods, works and services

Selection of both types of contracts: using the beneficiary’s usual purchasing practices provided that these ensure subcontracts/purchase contracts with best value for money (or if appropriate the lowest price) and that there is no conflict of interests.

‘Contracting authorities/entities’ within the meaning of the EU Directives on public procurement must also comply with the applicable national law on public procurement.
Budget categories and cost eligibility conditions as set up in the call text

- eligible cost country restrictions: only costs for activities carried out in eligible countries are eligible /subcontracted work must be performed in the eligible countries

- Other cost categories (Article 6.2. category D) synergetic elements and works in outermost regions are allowed (costs for financial support to third parties and land purchases are not allowed)

- Equipment: full cost

- Indirect costs: CEF Energy: 0% (not eligible)

- VAT: not eligible

- In-kind contributions for free are allowed, but cost-neutral, i.e they cannot be declared as cost
Budget categories for this call:
- A. Personnel costs
  - A.1 Employees, A.2 Natural persons under direct contract, A.3 Seconded persons
  - A.4 SME owners and natural person beneficiaries
- B. Subcontracting costs
- C. Purchase costs
  - C.1 Travel and subsistence
  - C.2 Equipment
  - C.3 Other goods, works and services
- D. Other cost categories
  - D.1 Financial support to third parties
  - D.3 Synergetic elements

E. Indirect costs
Specific cost eligibility conditions for this call:
- personnel costs:
  - average personnel costs (unit cost according to usual cost accounting practices): Yes
  - SME owner/natural person unit cost³⁶: Yes
- subcontracting costs:
  - country restrictions for subcontracting costs: Yes, subcontracted work must be performed in the eligible countries or target countries
  - travel and subsistence unit cost³⁷: No (only actual costs)
  - equipment costs: full cost
- other cost categories:
  - costs for financial support to third parties: not allowed
  - studies: No
  - synergetic elements: Yes
  - works in outermost regions: Yes

- VAT: VAT is NOT eligible
- other:
  - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost
  - project websites: communication costs for presenting the project on the participants’ websites or social media accounts are eligible; costs for separate project websites are not eligible
  - eligible cost country restrictions: Yes, subcontracted work must be performed in the eligible countries or target countries
  - other ineligible costs: Yes, costs related to purchase of land
Public procurement aspects (I)

- Depending on applicant’s status: to establish whether a proposed project is to be implemented in compliance with EU and national law on public procurement
- In any case, respect sound financial management principles
- During implementation:
  - procurement is verified at payment time
  - non-compliance leads to rejection of costs or reduction of support
Public procurement aspects (II)

- **sound financial management** (principles of economy, efficiency and effectiveness)
  - **best value for money** [at least 3 offers] considering the quality of the service, good or work proposed, i.e. the best price-quality ratio or on the lowest price
  - **avoiding conflict of interests**
- **transparency**
  - publication of a sufficiently accessible advertisement prior to the award of the contract. According to the Commission adequate and commonly used means of publication may include the internet (own website, etc.), National Official Journals, national and local means of publication (press, etc.) and the OJEU (see also Commission interpretative communication n° 2006/C179/02).
- **equal treatment and non-discrimination**
  - in line with the principles of the Treaty on the Functioning of the European Union, and in particular the free movement of goods, freedom of establishment and the freedom to provide services
2.2 Status of contracting procedures and authorisations, approvals and permits

Legal, administrative or technical issues

Are there any pending legal/administrative/technical issues, if any, which could prevent the project from being undertaken?

Objectives

Describe the objective of the work package and how it contributes to the overall and specific objectives of the project. State if there are links to other work packages (or conversely that there are no links to any other work package).

Activities (WP description)

Provide a concise overview of the main tasks, be specific and give a short name and number for each task. Provide quantitative information (dimensions, capacity of infrastructure, etc.)

Mention for each task links with tasks planned under other work packages. Flag tasks which are on the critical path.

Show who is participating in each task: Coordinator (CDO), Beneficiaries (BEN), Affiliated Entities (AE), Associated Partners (AP), indicating in bold the task leader.

Add information on other participants' involvement in the project e.g. subcontractors.

Complete the column on subcontracting: Subcontracts must be awarded using your usual purchasing practices – provided that they ensure best value for money and no conflict of interests. If you are a public procurer (contracting authority/entity within the meaning of the EU Directives on public procurement), you must also comply with the applicable national law on public procurement.**

Note:
The Coordinator remains fully responsible for the coordination tasks, even if they are delegated to someone else. Coordinator tasks cannot be subcontracted.

Introduction to the Legal Provisions
Model Grant Agreement (MGA)

Giulia FRASCHETTI
Legal adviser, CINEA

Virtual Info Day
14 November 2023
What is the grant agreement & what does it include?

The grant agreement (GA) is the contractual document signed with CINEA.

**YOUR RIGHTS**

- Receiving **EU funding**, under the terms and conditions defined in the GA.
- **Owning the project results**
- **Asking for amendments** of the GA, if something needs to be changed.

**YOUR OBLIGATIONS**

- Implementing the **project in line** with the description of the action - Annex 1 of the GA.
- **Submitting reports** at the time and for the periods agreed.
- Displaying the **EU emblem and reference to EU funding** (e.g. information material, equipment funded by the grant).

**HOW MUCH MONEY**

- Paying **never more than the maximum grant amount** fixed in the GA.
- Paying **less** than the grant amount fixed in the GA in case the costs at the end are less than budgeted.
How does the CEF grant agreement look like?

**e-GRANT**
The CEF grant agreement and its management are **fully electronic**.

This is from the signature of the grant until its end, all actions and communications will flow via the Funding & Tenders Portal (‘the Portal’).

**CORPORATE STRUCTURE**
The CEF grant agreement is based on a **Commission-wide model** (so-called ‘Corporate Model Grant Agreement’) structured in a core part and several Annexes.

**SPECIFIC ANNEX 5**
Some important CEF specific rights and obligations are part of Annex 5, i.e:

- Security - Article 13
- Intellectual property rights - Article 16
- Additional communication and dissemination activities - Article 17
- MS information and Durability - Article 18
How can you participate in the grant agreement?

- Beneficiary
- Affiliated entity
- Associated partner
- Subcontractor
What does it mean if you participate as …?

<table>
<thead>
<tr>
<th>Beneficiary</th>
<th>Article 7 of the GA</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Signs the Agreement and has all the <strong>rights</strong> and <strong>obligations</strong></td>
<td></td>
</tr>
<tr>
<td>- If several beneficiaries, <strong>it is mandatory to designate a coordinator</strong></td>
<td></td>
</tr>
<tr>
<td>- The <strong>beneficiaries</strong> which are not coordinator must accede to the grant by <strong>signing the accession form</strong> - Annex 3 - directly in the Portal, within 30 days after the entry into force of the Agreement</td>
<td></td>
</tr>
<tr>
<td>- The set-up of a consortium is recommended</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Affiliated Entity</th>

<td></td>
</tr>
<tr>
<td>- Has a <strong>legal or capital link</strong> with the beneficiary <strong>ex Article 187 (1) (b) of the FR</strong></td>
<td></td>
</tr>
<tr>
<td>- Complies with all the <strong>obligations</strong> applicable to the beneficiaries under the <strong>GA</strong></td>
<td></td>
</tr>
</tbody>
</table>
What does it mean if you participate as …?

**Associated Partner**
Article 9.1 of the GA

- Implements the action **tasks** as described under **Annex 1**
- May not charge costs to the action and **the costs for their tasks are not eligible** (may not be included in the estimated budget in Annex 2)
- Complies with all the **obligations listed under Article 9.1 of the GA**
- May be linked to a beneficiary or to the consortium

**Subcontractor**
Article 9.3 of the GA

- Participates in the action in case it is necessary for the implementation
- Implements the action properly
- The eligible costs are the **price charged to the beneficiary** (usually containing a profit margin for the subcontractor, but not for the beneficiary). The costs will be included in the estimated budget in Annex 2
What does it mean subcontracting?

- Subcontracts concern the **implementation of part of the project tasks** that can be outsourced

- Subcontracting may cover only a **limited part** of the action

- The beneficiaries have a **contractual link** with subcontractors

- The **price** for the subcontracts will be declared as "subcontracting costs" in the financial statement

- The beneficiary must award the contracts and subcontracts in compliance with **sound financial management principles**: meaning best value for money (or lowest price) or public procurement rules if applicable, and absence of conflict of interests
Internal roles and responsibilities of the beneficiaries

**Role of the coordinator**

- **Monitors** that the action is implemented properly
- Acts as the **intermediary** for all communications:
  - Submits the pre-financing guarantees
  - Requests and reviews any documents required and verifies the quality and completeness
  - Submits the deliverables and reports
  - Informs CINEA on the payments made
- **Distributes the payments** received to the other beneficiaries without unjustified delay

**Responsibility of each beneficiary**

- Keep information stored in the **Portal Participant Register** up to date - Article 19
- Informs CINEA and the consortium immediately of any events/circumstances likely to affect significantly/delay the project implementation
- **Submits to the coordinator in good time** the pre-financing guarantee; financial statement, certificates on the financial statements; the contribution to the deliverables and technical reports; any other documents and information required by CINEA
- **Submits via the Portal** data and information related to the participation of their affiliated entities
Which are the reporting requirements?
Article 21 of the GA - Datasheet point 4.2

**Reporting Periods** - Action duration is divided into one or more reporting periods, which will serve as basis for reporting requirements

Language of the report: **Language of the Agreement** - English

**Continuous Reporting:**

- Report on the progress of the action (e.g. *deliverables, milestones*, etc if any), in the Portal Continuous Reporting tool. Standardised deliverables (e.g. progress reports not linked to payments) must be submitted using the templates published on the Portal.

**Periodic Reports - including for the last reporting period:**

- To be submitted **60 days after the end of the reporting period**
- Include a technical and financial part (i.e. financial statements, use of resources, certificate on the financial statement if required)

**Member States information - Annex 5**: providing the reports to the Member States that support the action
All payments will be made to the coordinator

1. **Prefinancing payment**
   - Paid within **30 days** upon the entry into force of the agreement/ receipt of the financial guarantee if required

2. **Interim payments** - Interim payment ceiling **90%** of the maximum grant amount
   - Reimburses the eligible costs claimed for the reporting period and it is subject to the approval of the period report
   - Paid within **90 days** from receiving the periodic report

3. **Payment of the balance/ Calculation of the grant amount (no-profit rule)**
   - Reimburses the remaining part of the eligible costs claimed for the implementation of the action
   - Paid within **90 days** from receiving the periodic report
The party requesting an amendment must submit a request for amendment signed directly in the Portal Amendment tool and must include the reasons why and the appropriate supporting documents.

The request should not have the purpose or the effect of making changes which would call into question the award of the grant or breach the principle of equal treatment of applicants.

Amendment must be signed within 45 days of receiving the request or additional information requested - Disagreement must be formally notified within the same deadline.

An amendment enters into force on the day of the signature of the receiving party. An amendment takes effect on the date of entry into force or other date specified in the amendment.

The GA may only be modified while it is in force and so before the payment of the balance. If a modification is requested for exceptional reasons (e.g. change of bank account, etc.) after the completion date of the action and before the payment of the balance, such request must be duly justified by the beneficiary.

Amendment - Article 39 of the GA
The beneficiaries must engage in the communication and dissemination activities such as:

- Present the project (including project summary, coordinator contact details, list of participants, European flag and funding statement and project results) on the beneficiaries' websites or social media accounts.

- Upload the public project results to the CEF Project Results platform, available through the Funding & Tenders Portal.

**Visibility**: the beneficiaries must acknowledge EU support and display the European flag (emblem) and funding statement (translated into local languages, where appropriate).
Beneficiaries **may suspend the action** in exceptional circumstances that make implementation impossible or excessively difficult (e.g. force majeure) or **terminate the action** in duly justified cases - **new procedure: via a request for amendment** - see Article 39

- The Agency **may suspend, terminate the grant agreement or reduce the grant amount** for instance for:
  - Substantial errors, irregularities or fraud
  - Serious breach of obligations under the grant agreement or during its award ((including improper implementation of the action, non-compliance with the call conditions, submission of false information, failure to provide required information)
  - **Additional grounds: due to major delays, the objectives of the action risk to no longer be achieved**
Thank you
